Installation Instructions

1. Position Fixture and drill correct diameter hole to correct depth.
2. Clean out hole by brushing and blowing
3. Insert Ankerbolt through Fixture into hole
4. Tighten Ankerbolt to Recommended Torque

Application Guide

Steel Erectors Steel Baseplates, Steel Beams, Fire Escapes, Elevated Walkways, Balustrading

Formworkers Shuttering Footplates, Raking Props, Temporary supports

Electricians Cable Brackets, Lighting Columns, Switch Boxes.

Plumbers Pipework Brackets, Industrial Boilers, Water Tanks

Carpenters Roof beams to concrete frame. Timber Sole Plates, Door & Window Frames.

Storage Systems Racking, Protection Barriers, Guide Rails

These modern fixings provide a cost effective and time saving alternative to traditional wall bolts and sleeve anchors. Traditional window frame anchors can be replaced by the masonry screws.
